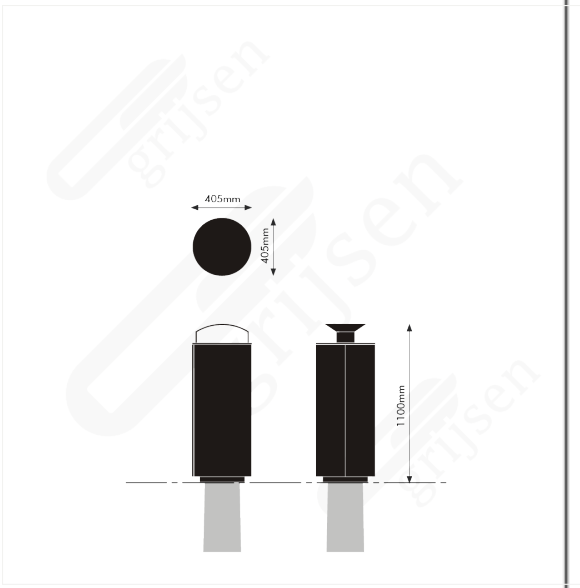
Constructo 70

Article number: 10000491

Series: Constructo



Product description

The **Constructo 70 litter bin** is recognizable within the Constructo series because of its round design. The litter bin has **no visible frame**: visually the base stands directly on the ground.
A special base plate allows the Constructo to be mounted directly on concrete or asphalt. This litter bin has a capacity of **70 liters**. The studs on the door panels prevent posters and stickers from being stuck to the panels of the litter bin. This robust litter bin is **fully modular**, making all parts easy to replace. The stainless steel lock with **double locking** makes the litter bin vandalism proof. The Constructo 70 is available with a stainless steel inner bin or a plastic bag holder.
