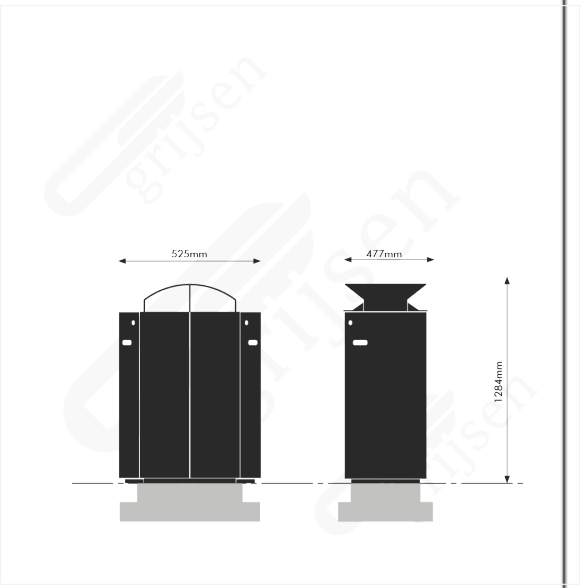
Condual

Article number: 10001379
Series: Condual



Product description

The **Condual** is a new waste bin within the **separate collection** series. The bin has **two fractions** of 100 liters each. The big advantage of this litter bin is that both fractions can be used on two sides. This is possible because the hood of the bin is turned a quarter turn. The color of the fractions can be matched to the waste flow. Due to the **modular construction**, all parts can be replaced separately. This gives the Condual an immediate **circular basis**. The waste bins are optionally supplied with a sticker set for on the door panel of the waste bin. On the panel, there is a recess where the sticker can be stuck on. The sticker indicates which waste stream belongs in the fraction.

Extra information

Type of frame

- Freestanding
- Wall model

Material frame:

Steel, 4 mm, hot-dip galvanized and two-layer powder coated 120 µm, in RAL colour of your choice

Material front and rear panel
